

## Sri Tapasviji Poorandasji Udasin

November Newsletter

### Dear initiated devotees of Baba Tapaswiji on his boat of Sat Kartar Beda Par

Light travels faster than sound. Distance in Space is calculated in light years. Just as both the distance and speed in its peak are perceived in terms of light, so is grace acknowledged through light.

As it is correctly said that grace in its ultimate state is known as enlightenment.

When enlightenment takes place, light then simply shines on the face of the initiated ones.

Initiated beings know the responsibility behind this light – so as to honour it, protect it and share it with others in bringing action to Guru's sole objective to bring light into darkness of his chosen ones.

The syllables Gu and Ru in Sanskrit stand for the following: Gu denotes the spiritual ignorance that most of humankind is in Ru represents the radiance of spiritual knowledge that dispels the spiritual ignorance.

Just as every year Diwali is celebrated with full zest and enthusiasm, an enlightened being on the other hand celebrates every moment of his life with same zeal.

Every moment of life when celebrated denotes thanks to the Almighty for bestowing life in human form in which one can understand meaning of existence and liberation.

In line with the forthcoming celebrations during holy month of Nov 2012 to honour light as Diwali festival, we are pleased to share with you as per attached the message for the year 2013 as Guru's shimmering light for his beloved ones.

We hope you will enjoy reading the attached New Year message for 2013 and share it with others as part of your subtle seva.

When you share the light of the Guru in fact you are doing your entrusted Seva in a humble way.

It is Seva that selects the Sevaite.

HONOR THE LIGHT - PROTECT THE LIGHT - SHARE THE LIGHT
