Dear Devotees of Baba Tapaswiji on his boat of Sat Kartar Beda Par

Whatever happens, happens for the best, Whatever happens happens with the flow. The flow has a plan. The flow is not static. The flow will turn into something grand just as the river will merge in the sea and will become the majestic ocean.

Hence the flow is majestic - To go with the flow is to be in sync.

Here is a short story; there used to be a workaholic – once he took leave from his workplace after a long period of time and went on a holiday to a far off place with his friends – during this holiday he visited a riverplace and captured the scenic beauty of the river on a video camera and made a mp3 file on his computer. Once back from the holiday the man would often log on to that file at intervals of the day during his office routine and feel the bliss of that river side.

Sat Kartar Beda Par

Ps: attached is a wonderful photo of Babaji in his majestic flow – you may try looking at this photo and feel the bliss of flow

In days to come he started feeling the change in him – he was peaceful, he was at content. He had understood the majesticness of the ocean. He had understood the majesticness of the flow of things in life.

Co-incidently all his life there was a small toy type boat kept in his living room which was bought by his father. In that moment he had understood to be on that boat was to go with the flow on the river.

He was ever peaceful.

In a similar way we have been blessed by our Guru to let his mantra of Sat Kartar Beda Par fall in our lap to perceive the majesticness of the ocean

Contemplating as sitting by the riverside allows our mind to feel the peace at the flow of whatever things that happen in our life.

If most of what is stated below is what we feel in us then surely we are with the majestic flow.

At Ease, concerned, interesting, silent, godly, courageous, compassionate, energetic, brightful, committed, respectful, trustworthy, contemplative, balanced, truthful, conscious, subtle yet witty, surrendering, independent, detached, happy, kind, kingly, generous, forgiving, in sync, flexible, humble, godly, goldly, poised, grounded, fearless, respectful, transparent, humility, energetic, committed, totalness and so on and so forth.

The Sages were always with the flow – they sailed on the majestic ocean.

So can you – because you have imbibed Babaji's mantra of Sat Kartar Beda Par - You know the plan – You know the majestic ocean.
