## BANISH

Dear Devotees of Baba Tapaswiji  
on his boat of Sat Kartar Beda Par:

Technology 2011 – we all want to be connected – no mails – no calls – and we feel that no one loves us – we just want to be connected – connected with latest blackberrys, connected with latest LCD Plasmas – connected with latest gadgets such as iPhones, ,connected with cars in such a way they are equipped with blue tooth - if any of these is lacking then there is a sense that something that is missing in life.

Our wants have changed from basic to luxury and to discretionary. Actually what we always miss is the childhood – that innocence – those days when would make paper boats – those days of our school – those rainy days when we would become wet going to school and would celebrate just when the school would declare a holiday due to heavy rains – where are the butterflies ? where are those childhood friends it is all a past but yes we miss it !

It is written in scriptures that you can enter God's kingdom only when you become a child. Even if we are grown up and we lost our childhood but whether you will agree or not we are still a child in this universe as good as the stars that shine – that magnificent Sun- that cool Moon – those wonderful planets revolving in the galaxy – we are as great as these heavenly elements. Our thoughts are as fast as that of a comet zooming in the space. If our thoughts are so fast so can our energy be fast in rewinding back should be ponder for a while of going backwards from discretion to luxury and back to basics.

We have grown and toys do not fantasize us Ah ! but toys of technology do fantasize us ! So when one goes back to basics one actually becomes happy with what one has and one is at content.

In other words Contentment is the garment in spiritually that one does not have to change ! It is for this reason one finds seers and saints with just one colour robe – may that be saffron color, white color or in black coloured alafis.

The single color chosen by the realized saint would signify contentment – no wants.

To imbibe the quality of Contentment True saints have advised for harsh step which is known as Banish – Banish Guilt / Banish Anger / Banish Hatred / Banish Abusive thoughts / Banish Greed and most of all Banish Ego.

The notorious negative elements of Guilt, Anger, Hatred, Abusive Thoughts, Greed, Ego once when dwells in a human mind are very difficult to eliminate only possible through the Grace of a Guru who guides his devotee to resort to the drawing of the sword and Banish them.

Surely you remember your days when parents were stern with you – Same way you can be stern on your self. The negative elements just cannot stay in the mind of a sound devotee of a true Guru.

They say one step from the devotee end and 10 steps from the Guru's side.

BANISH the negative elements from your mind and see how master you become of your mind – just as the sparkling stars in the galaxy / just as the magnificent Sun- just as the cool Moon – just as the heavenly planets revolving in the milky way – we are as great as these in the Universe.

As a child of the universe we are here rightfully here to shine as magnificent Sun transmitting light of the Guru to all those who come in contact with us. You will always see in a true devotee red light shimmering on his face – this is the proof that the devotee has been initiated 100 %

A blessed devotee can bless a fellow individual if he wishes to and that itself is blessing of the Guru – you do not need a blessing directly from a Guru because as a blessed devotee you carry the same shakti of the Guru – such is the suchness of a true guru who has ignited the shakti of his devotee in same form and in same manner.  
Bless one Bless All.

Life is blessing as the spiritual masters have repeatedly said.

If your life is blessed then there is every reason that you are life is blessed hence the question of anything negative cannot arise at all.

Rewind from discretionary to luxury to basics.

**BANISH ! Rewind !**
